

Genuine 4-Stroke Motorcycle Oil SJ/MA 10W-30

Compatible with all 4-stroke motorcycle brands

- ✓ Longer Oil Drain Interval
- ✓ High Engine Protection
- ✓ Fuel Efficiency
- ✓ Environmentally Friendly

1.0 Litre

0.9 Litre

■ How to efficiently use Honda Oil

Major Service (In case of engine disassembled) * - Use 1.0l
Minor Service (In case of normal oil drain) - Use 0.9l

■ Low maintenance cost

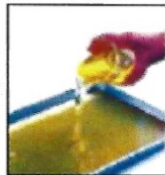

Service	Oil Brand	Oil Change Interval	Oil Change Time/Month	Price/Bottle	Oil Change Cost/Month
Major & Minor	Other Brands 1.0l	2,000 kms	2	Ksh. 400	Ksh. 800
Major	Honda 1.0l	4,000 kms	1	Ksh. 550	Ksh. 550
Minor	Honda 0.9l	4,000 kms	1	Ksh. 500	Ksh. 500

■ Why is Honda motorcycle oil fuel efficient?

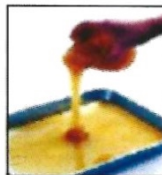

Lower viscosity can reduce internal engine friction. The viscosity of Honda motorcycle oil 10W-30 is lower than that of other oils such as 20W-50.

The Viscosity at lower temperature

Honda 10W-30

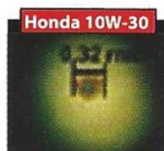

20W-50 Oil

■ Does lower viscosity oil cause metal wear more than higher viscosity oil?

No. Honda motorcycle engine is originally designed to best match with lower viscosity 10W-30. Moreover Honda motorcycle oil contains anti-wear additives.

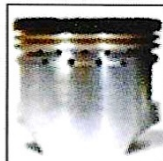

Check diameter of metal wear on ball

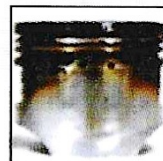

■ Why is Honda Motorcycle oil better for your Honda motorcycle than other motorcycle oils in the market?

Honda motorcycle oil is especially formulated for Honda for Honda 4 stroke motorcycle engine in maximum power protection.
